Real Name: Abhinav Mathur

Stage Name: DJ SoLo

About Me:

Many DJs today know their own musical style inside out and back to front. They can weave absolutely seamlessly between tracks, and technically have skills to blow you away. But what about the huge mass of music that gets left out?

This made DJ SoLo what he is today.

DJ SoLo always believed that you learn a lot about people when you listen to the songs that mean something to them. Think again, as this is something we have to admit!

Many gave DJ SoLo the credit he deserved. Known for his authentic compositions of synths and beats, DJ SoLo introduced to the industry what potential electronic music has, and can have in the coming times.

Although his first love being electronic music, DJ SoLo also realised that if you like different styles of music, chances are your audience do, too. Therefore, he mastered himself in music ranging from commercial club bollywood , to progressive house.

DJ SoLo is one of the few in Mumbai who boasts himself of creating his own compositions in remixing, thus, giving an all new dimension to remixing/production.

At present, DJ SoLo not only remixes and produces electronic music thousands of people are fans of, but he also inspires other DJs around him to be among the best.

Please visit his creations because DJ SoLo's Music expresses which cannot be said and what is impossible to keep silent.
